- Developed Front-End Side of web pages using HTML, CSS & JavaScript.

## SKILLS

PROGRAMMING LANGUAGES	Python
LIBRARIES/FRAMEWORKS	JavaScript, HTML, CSS
TOOLS / PLATFORMS	Github
DATABASES	MySQL, MongoDB

## PROJECTS / OPEN-SOURCE

**LIVE CHARACTERS AND WORDS COUNT | [LINK](#)** JavaScript, HTML, CSS

- Some times we are in a situation that we have to enter a limited number of characters ( like when we are tweeting in twitter) .
- This web page counts the number of characters and words that you entered in real time.

**RANDOM PASSWORD GENERATOR | [LINK](#)** JavaScript, HTML, CSS

- In most of the cases, we urgently need to create an account in a particular platform, at that time we need to think of a stronger password in a very short time.
- This website helps us to generate a random password with combination of capital letters, small letters & special characters.

**NETFLIX CLONE PAGE | [LINK](#)** HTML, CSS

- I cloned Netflix webpage. Netflix is one of the industry leading online streaming platforms.

## CERTIFICATIONS

- MongoDB Basics - **MONGODB UNIVERSITY**
